

Version with 6 brochure holders
(A4 format) on each side.
Maximum capacity: 18 holders.

Three sided BROCHURE holder

TRISATIN

self sustaining and rotating (total h. 1,80m)

A structure made of powder coated steel and satinized methacrylate lateral panels specifically made to house several brochure holders made of transparent methacrylate.

Available formats:

A4 (210x297 mm)

1/3 A4 (100x210 mm)

A transparent internal partition is available. This allows the brochure holder to be divided into two separate parts suitable for a 1/3 A4 format.

Lateral panels h. 1500 mm
total 18 brochure holders
